

REMARKS

This supplemental amendment is filed to supplement the Amendment filed December 22, 2009. In view of these amendments and remarks, this amendment should be entered, the application allowed, and the case passed to issue. No new matter or considerations are introduced by this amendment. This amendment merely corrects a typographical error in the specification. Support for this amendment is found in the attached partial translation of Anti-Patent Literature No. 5, referred to on page 36 of the Clean Copy of the Substitute Specification.

On page 2 of the Office Action of July 21, 2009, the Examiner noted that Anti-Patent Literature No. 5 published April 1996 referenced on page 36 of the specification was not listed in a Information Disclosure Statement. The publication date of April 1996, however, was in error. By this amendment Applicants have corrected the publication date to December 10, 1995. Anti-Patent Literature No. 5 has been considered by the Examiner, as evidenced by the initialed entry on the PTO-1449 form filed May 19, 2006.

Applicants regret any confusion created by this inadvertent typographical error.

In light of the above amendments and remarks, this amendment should be entered, the application allowed, and the case passed to issue. If there are any questions regarding these remarks or the application in general, a telephone call to the undersigned would be appreciated to expedite prosecution of the application.

Application No.: 10/580,070
